**REPORT ON**

## **WORLD OCEAN DAY**

1. **Name of the event** : World Ocean Day
2. **Date** : 11<sup>th</sup> June 2023
3. **Time** : 08:00 AM to 10:30 AM
4. **Venue** : Agara Lake, HSR Layout
5. **No. of Participants** : 42 NCC Volunteers
6. **Event Coordinator** : Lt. Amaregouda, Associate NCC Officer
7. **Resource Person** : -NA-

### **Objective:**

To raise awareness among the public about the importance of conserving water and natural resources, and the negative impact of pollution, especially plastic waste, on aquatic ecosystems.

### **Outcomes:**

1. **Cleaner Surroundings:** Significant reduction in plastic waste and debris around Agara Lake, resulting in a cleaner environment and improved water quality around the lake area.
2. **Increased Awareness:** The rally helped in spreading awareness among local residents and the general public about the critical need to conserve water, minimize plastic use, and take action to protect natural resources.
3. **Positive Public Perception:** Enhanced visibility and understanding of the role of NCC cadets and students in contributing to environmental protection and social welfare, thereby encouraging other groups to engage in similar efforts.

### **Report or Overall Summary:**

On the occasion of World Ocean Day, 42 NCC cadets from St. Francis College participated in a meaningful environmental initiative at Agara Lake, HSR Layout, on 11th June 2023. The event aimed to raise awareness about the importance of protecting aquatic ecosystems and conserving natural resources.

The cadets began their day at 08:00 AM, actively engaging in a cleanup drive around the lake's surroundings. They collected plastic waste, debris, and other pollutants that had accumulated in the area, significantly improving the cleanliness and ecological health of the local environment. This initiative highlighted the detrimental effects of plastic waste on water bodies and the urgent need for waste management and pollution control.

Following the cleanup, the cadets took part in an awareness rally to further educate the public on issues related to water conservation, the need for sustainable practices, and the significance of maintaining the ecological balance.

The event was a great success, fostering a sense of responsibility and environmental stewardship among the participants and the public, while also contributing to the overall goal of preserving our natural resources.
